Subject: Cyanide Spill USMX Goldstrike

Robert Wilson, USMX phoned 4:45 on 8-26 to report erosion and attendant displacement of 3000-5000 cubic yds of ore off of the north side of leach pad #2. The erosion and displacement of ore resulted from a 4.1" rainstorm that fell late 8-25-93. Runoff reported partially to sed pond, partially to the E Hamburg pit. There may have been very limited escape of cyanide-laden fluids out of the permit area.

Total involved cyanide for the entire event estimated at 1 lb.

BLM, DEQ-water pollution and the county have been advised. A 3rd party (JBR) has been hired to write an appraisal. We will be copied.

I don't believe we need to be involved at this stage. Replacement of the displaced ore back onto the pad may involve a change in the MRP, but I believe it is too early to predict how.

Re: Savings Certificate No.: 3 204 0532 3587
Your account will mature on: 9/06/93
Balance at maturity: \$1,007,750.00

Dear Certificate Customer:

Thank you for investing with us. Your certificate of deposit is due to mature shortly.

As a reminder, your certificate was issued as a single maturity CD. As such, it will not automatically renew at maturity. If you do not renew the account, your deposit will not earn interest beyond the maturity date.

If you are looking to reinvest your funds, we hope you will again consider investing with us. If you are interested in taking advantage of the convenience of an automatically renewable certificate, your banker can assist you.

For current rate information, please call Fastline 24-Hour Banking at (303) 585-8585 in the Denver metro area, or toll free at 1-800-888-8624 if outside the Denver metro area. Telecommunications Device for the Deaf (TTY) 1-800-685-5065.

Dear Ms. Pietrzak:

Re: Final Approval, Transfer of Goldstrike Mine and Goldstrike Exploration Project, USMX of Utah, Inc., M/053/005 and E/053/012, Washington County, Utah

On June 23, 1993, the Board of Oil, Gas and Mining approved of the replacement sureties and permit transfer for the Goldstrike Mine and the Goldstrike Exploration Project, from Tenneco Minerals - Utah to USMX of Utah, Inc.

Copies of the approved and signed replacement sureties and the permit transfer form are enclosed for your records. USMX provided an updated set of mine site disturbed area maps to the Division on May 24, 1993. Unfortunately we only received one copy. By copy of this letter to USMX, we will request that another set of maps be copied and sent to your office to complete these documents.

Please call me if you have any questions in this regard.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
